Our Collection

Mantels - Pages 8-37

Experience the epitome of elegance with our exquisite mantel collection, featuring natural stone, marble, and timber fire surrounds. Meticulously hand-crafted into an array of contemporary and traditional designs, each mantel exudes timeless beauty and serves as a stunning centrepiece for any fireplace.

Cast Iron - Pages 38-51

Immerse yourself in the Victorian era with our meticulously replicated cast iron inserts, combinations, and firebaskets. Combining supreme craftsmanship, quality materials, and elegant design, our collection offers a range of traditional and contemporary pieces that will enhance any home.

Suites - Pages 52-73

Elevate your living space with our versatile suite collection, offering a luxurious range of options crafted from Portuguese Limestone, Corinthian Stone, and Aegean Limestone. Alternatively, for those without a chimney breast, our flat wall electric suites provide a convenient and stylish solution to bring the charm of a fireplace into your home.

Fires - Pages 74-93

Discover the perfect fire for your home with our diverse range of electric and gas fires. Whether you prefer the classic charm of stoves, the sleek elegance of hole in the wall designs, the modern appeal of media walls, or the seamless integration of 16" insets within a suite, we offer a versatile selection to suit every style and preference.

NATURAL STONE & TIMBER

AEGEAN LIMESTONE

Sourced from the Eastern Mediterranean, Aegean Limestone has a distinctive creamy white colouring, speckled with tiny fossils. This consistent, fine-grained texture is what makes Aegean Limestone so unique.

This material is available made to measure.

PORTUGUESE LIMESTONE

Portuguese Limestone is quarried from various regions in Portugal. This beautiful stone is characterised by darker veining alongside fossilised plants and animal life that have accumulated over 50 million years.

This material is available made to measure.

CORINTHIAN STONE

From the Western Mediterranean, this limestone has a warm, sandy colour. Its composition is magnified with small fossils and random sedimentary veining, creating unique clusters that are sporadically distributed.

This material is available made to measure.

TIMBER

Crafted from a selection of solid natural timbers or MDF, wooden surrounds can be supplied in a variety of oiled, painted, stained or veneered finishes. Timber is incredibly durable and versatile.

This material is available made to measure.

Bespoke Service

Capital Fireplaces' manufacturing and fabrication facilities are strategically located to utilise both the most advanced manufacturing technology available and the highest quality skills.

Established long term relationships with quarries and foundries with highly efficient fabricators and stone masons, provide the backbone for the stringent quality and manufacturing standards we achieve with our collection.

We strive to offer our customers a great deal of flexibility in terms of the size of their chosen fireplace design. That's why we have implemented a Made to Measure service for a variety of our mantels in the following materials; Aegean Limestone, Corinthian Stone, Portuguese Limestone and Timber.

No matter how small or large your chimney breast, whether you'd like to change the overall size of your fireplace, make the shelf wider or reduce the rebate size, we can deliver a completely tailored service.

Simply look out for the Made to Measure logo on our mantels throughout this brochure.

GRANITE & MARBLE

PEARL GREY GRANITE

Sourced from Southern India, Pearl Grey Granite is complex and unique in its formation. There is layered depth to this granite with a dark grey base that features speckles and streaks in shades of beige and brown.

This material is available made to measure.

CARRARA MARBLE

Quarried from the Italian city of Carrara since Ancient Rome, Carrara Marble has been used in the construction of many remarkable architectural buildings. Carrara Marble has beautiful feathery veining in hues of grey and blue.

This material is not available made to measure.

CALCARA MICRO MARBLE

Calcara Micro Marble is made by combining crushed marble with a special resin. Calcara Micro Marble is a polished white marble featuring delicate grey veining that is both consistent and beautifully unique.

This material is not available made to measure.

CLARA PURA MARBLE

Originating from Beijing, Clara Pura is a white marble with iridescent qualities. Clara Pura can display either a slight beige or grey undertone and the unique veining varies between greys and golden beige, giving this marble a unique finish.

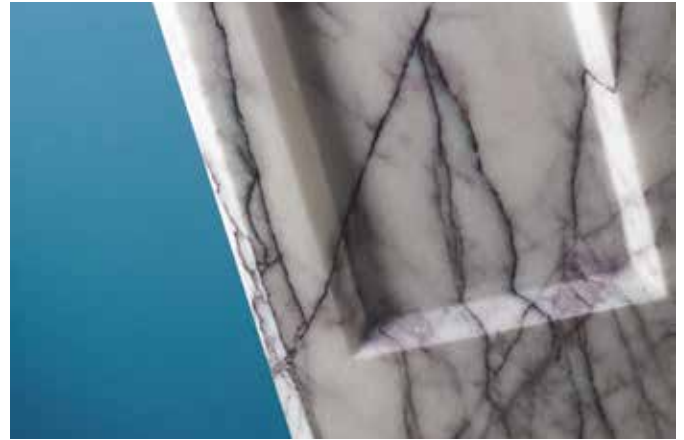

This material is not available made to measure.

KALLOS MARBLE

Originating from Greece, Kallos marble lives up to its Greek meaning - 'beauty'. Kallos marble is characterised by its crisp white base and soft grey veins that create cloud-like wisps and shadows.

This material is not available made to measure.

LILAC MARBLE

Sourced from Turkey, this white calcite marble has a subtle grey undertone featuring black, deep violet and lilac veining. This stark contrast of colours creates a stunning visual aesthetic.

This material is not available made to measure.

NERO MARBLE

Quarried in the North of Spain, Nero marble gets its black colour from naturally-occurring bitumen. Bold white veining punctuates through the dark marble, creating a visually stunning, lightning-like pattern.

This material is not available made to measure.

Provident High Efficiency Cast Insert

Available in a Black or Highlighted finish, the Provident consists of a back panel and fireframe. By integrating both components, we are able to create a highly efficient gas or electric fire.

The standard Provident is recommended for gas fires, and the Flat Wall Provident will allow an electric fire to be fitted in a 3' rebated mantel without needing a chimney or flue. Both options offer a much higher level of efficiency than a standard arched insert.

Cast Iron Inserts

All products (except chrome finish) are suitable for burning solid fuel, however polished and highlighted products may tarnish. Only burn small fires to start with in order to temper the cast iron. Before committing to a fireplace, please discuss your particular installation with your retailer who will provide expert advice and carry out a survey.

All dimensions are provided as a guide only and are subject to a tolerance of $\pm 12\text{mm}$.

It is normal for tiles to craze over time.

Most fires have a remote control option, please ask your retailer.

Supplied with deeper back as standard

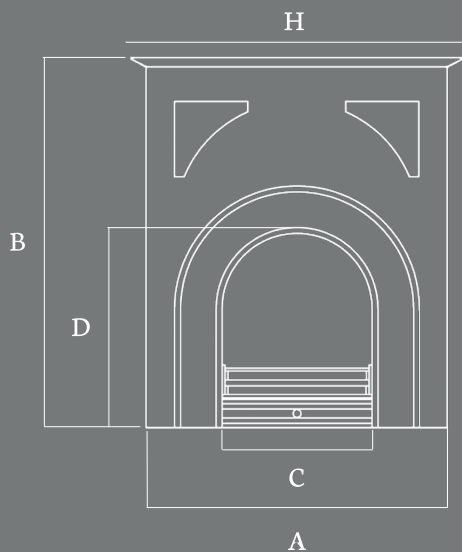

*Available with deeper back (as optional extra) for larger burning area

Recent changes in legislation have been made in an attempt to reduce emissions in the UK. Whilst the actual heat output has not changed from previous years, selected inset gas fires shown in this brochure are no longer suitable for primary heating purposes and should be used in conjunction with the primary heating system as decorative only with occasional use.

Due to the nature of the materials and appliances used within this brochure, actual finishes and colours may vary slightly. Flames shown within the fires may also vary depending on gas type, fuel quality and the performance of the flue or chimney. For information on after-care and maintenance, please visit our website at www.capitalfireplaces.co.uk

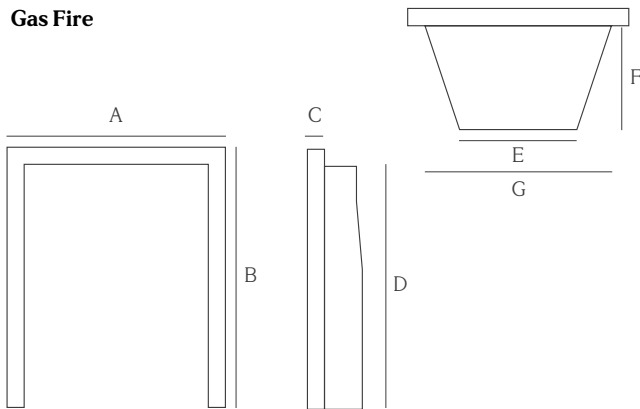

Capital Fireplaces Ltd reserve the right to change specification or de-list products at any time. Please note images shown in this brochure are for illustration purposes only.
