Make a statement

Our outstanding Avanti Gas conventional flue fires are available as natural gas and LPG models and come in two sizes. What's more both the Avanti 65 and the larger 85 come with the added option of a framed installation. Make a truly exceptional statement with the bold Expression frame, or opt for the effortless sophistication with the minimalist Edge+.

The Avanti Gas burner system creates a glowing ember-effect bed and wrap-around, rolling flames placed in thoughtful points around the log-effects, mirroring a traditional woodburning fire. This is enhanced by our alluring EchoFlame™ Black Glass Lining, a reflective backdrop creating mesmerising layered flame visuals. Combining these features with an ultra-realistic, hand painted Split Oak log-effect, these premium fires drive at picture-perfect quality.

Experience the exceptional

When you choose Onyx, you are choosing more than just a fire or stove. You are choosing the pinnacle of British innovation and quality. You are choosing prestige. As part of the Stovax Heating Group, Onyx is the culmination of over 40 years of experience designing and crafting best-in-class heating products. Every fire and stove is born in our state-of-the-art research and development laboratories, and incorporates industry leading technology and design.

The Onyx retailer network

We take great care to ensure that our fires are designed, tested, and manufactured to the highest possible quality and safety standards. We are just as determined to make sure they are sold and installed correctly so that you will enjoy years of pleasure from your purchase. Accordingly, you will find our Avanti range is exclusively available from our experienced, independent retailers' showrooms.

Installation and Safety

Onyx gas stoves must be fitted by a qualified gas installer (Gas Safe registered in the United Kingdom or Bord Gais registered in the Republic of Ireland). Please note that all parts of these stoves become extremely hot during operation and can result in serious injury and burns if touched. It is therefore recommended that a fireguard complying with BS 8423 (latest edition) is used in the presence of young children, the elderly or infirm.

How little does it cost to run an Onyx Avanti Gas?

An Onyx high-efficiency gas fire combines stunning visuals with energy savings. Use it for zonal heating to warm only the room you need, potentially lowering energy costs. An Avanti gas fire can cost as little as 90p for an evening's warmth*, offering both style and heat in equal measure.

Avanti Gas[◇]

- ✓ Input: 6.4kW (high), 3.6kW (low)
- ✓ Nominal Heat Output: 4.5kW
- ✓ Remote Control Model
- ✓ Efficiency Class: D
- ✓ Maximum Efficiency: 78.4%[†]

Example Running Costs

1 Hour	on low continuous heating	22p
1 Hour	on high continuous heating	40p
4 hours	on low continuous heating*	90p
4 Hours	on high continuous heating	£1.60

Cost per evening*
90p

*Based on Avanti Gas 65 Conventional Flue Natural Gas model, running at 4 hours on low input of 3.6kW. The costs presented are based on the average UK cost per unit of gas (including VAT) from 1st October 2024, for customers on the default tariff. Figures generated are for typical domestic consumption paying by direct debit and will vary based on actual household usage (6.24p per kWh, OFGEM, Energy Price Cap, <https://www.ofgem.gov.uk/energy-price-cap>). Does not include any costs relating to product maintenance and servicing. Prices rounded to nearest whole pence. [†]Maximum efficiency is achieved when running product on high output setting. [◇]Based on Avanti Gas 65 Conventional Flue Natural Gas model.
