Fireplace
COLLECTION

Charlton & Jenrick^{LTD}
Best of British fires, fireplaces & stoves

THE Fireplace COLLECTION

Welcome to the new Charlton & Jenrick range of contemporary and traditional fireplaces. As a leading UK manufacturer and supplier we take great pride in the design and manufacture of our fireplaces, fires and wood burning stoves. The end result is a stunning range of fireplaces that work, as designed, in harmony with a wide choice of fires and multi-fuel stoves.

All the fireplaces in this brochure are designed and manufactured with quality in mind using the best available Limestone. We believe to fully understand these designs and finishes you need to see the products in the flesh.

We always recommend that you visit a Charlton & Jenrick authorised showroom to see the fireplaces in their true glory.

Charlton & Jenrick^{LTD}

Best of British fires, fireplaces & stoves

Made to Measure and Alterations

Whilst looking through this brochure you will see many styles and designs that offer a wide choice to suit most homes. The sizes of the fireplaces are the most commonly requested but don't worry if the sizes shown don't exactly meet your requirements. We offer a full made to measure special service for any of our fireplaces featured in this brochure, we can also easily make small modifications like hearth sizes so they fit with the current cut of your carpet or flooring.

For more details on this service please speak to your local Fireplace Showroom who will be happy to help. Please note minor alterations may take up to a week longer to deliver and special sizes will need to be manufactured so please allow 8-10 weeks for these.

As well as the specials we offer we also have a range of Black Granite Back Panels & Hearths and a choice of Slate Effect stone chambers for inglenooks and stove installations.

Offering a choice

WITH TWO WORLD CLASS QUALITY LIMESTONES

In this brochure you will find some of the countries best selling fireplace designs along with some new classics. We offer two materials; Portuguese Limestone and Premium Portuguese Limestone. A description of these materials can be found below:

Portuguese Limestone

Portuguese quarries produce the third largest volume of natural stone for export in Europe.

Portugal has a worldwide reputation for consistently producing high quality material using refined extraction methods and state of the art technology. Typically it is a light cream coloured material fused over millions of years, it contains skeletal fragments of marine organisms resulting in natural veining and fossils throughout.

Portuguese limestone is usually cut along the grain, creating the distinctive stripes you will see in your fireplace.

Premium Portuguese Limestone

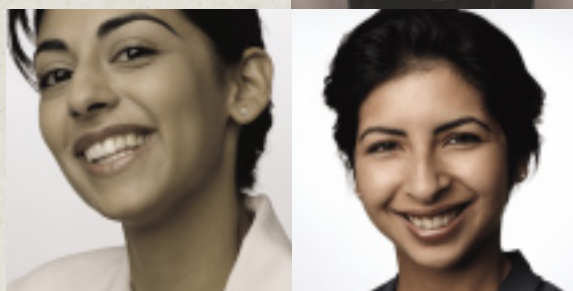

Being a natural material when it is being quarried there are many variations of consistency and the perceived quality.

Our Portuguese Limestone mentioned left is of one of the finest quality limestone that is quarried. The very best 'crème de la crème' material found is reserved for our Premium Portuguese Limestone fireplaces.

As well as choosing the absolute best quality the limestone is also cut along the grain to release its natural beauty. The lines in this limestone can be delicate and light

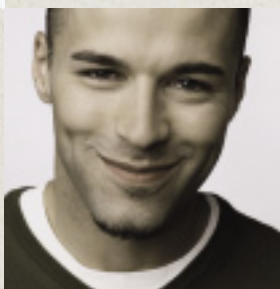

Every face IS DIFFERENT

Every Limestone fireplace has it's own natural beauty and unique look.

The veins, markings and shade will always vary and never be the same as the surround you have seen in the showroom. During production, each piece is carefully matched to create a totally unique product.

Like the human face, these imperfections are what makes natural stone different from mass produced surrounds and why they appeal to the discerning buyer.
