INNOVATION, DESIGN & CREATIVITY.

Innovation, flair and creativity is the driving force behind Solus product development. Our design team is passionate about bringing new and exciting ideas to life by pushing the boundaries of traditional electric appliances with the amalgamation of exquisite styling, cutting edge technologies and innovation to provide instant heat, realistic flames, and adaptive ambient lighting to your living space.

The Solus range is the outstanding result of extensive research and development, meticulous attention to detail, and the highest standard of quality. With a host of unique and innovative features, these appliances are unrivalled in their class.

INSTANT HEAT AT YOUR FINGERTIPS.

Part of the Solus design ethos is to ensure that all appliances offer clear and simple controllability. Whilst functionality may have advanced and become more dynamic, we believe that intuitive interaction is paramount.

The Solus fires can be conveniently controlled in four ways:

- Manually using the multi-function panel discretely located on the appliance
- With the intuitive remote-control handset
- Through your smart device (such as phone or tablet) using Wi-Fi connectivity
- Voice Control*

With built in Wi-Fi connectivity, enhance your user experience with our smart app enabling you to control your appliance from anywhere! The app allows you to set tailored programmes, schedule on/off times, set temperatures, design custom light effects, plus much more.

The quick start heat option allows you to select low heat, high heat, or cool blow at the touch of a button. Whilst adaptive smart heating allows you to schedule the exact time and date you wish to heat your room, automatically adjusting the environment to reach and maintain the desired temperature.

*Available on iX models only. The voice control for VS is limited to turning on and off only.

SMART TECHNOLOGY.

With Solus, the combination of functionality through applied smart technology, it creates the ultimate home heating experience. Your appliance will synchronise with your smart device, such as phone or tablet, putting you in complete control. The latest sensor technology helps to create our most efficient appliance ever, ensuring that the room is heated to the correct temperature at the correct time with optimum energy usage.

We are committed to a sustainable future, ensuring that our appliances make the most efficient use of energy. All Solus appliances benefit from temperature detection and regulation technology; if there is a sudden drop in room temperature, perhaps caused by an open window or door, the appliance will temporarily deactivate any heating functions to avoid energy wastage and will reactivate when the window or door is closed.

VS100 ZENITH IN NERO

OPTIONAL AMBIENT LIGHTING.

Extend the atmosphere beyond the fire and into the room using a Solus ambient lighting kit, allowing you to create a further interactive dimension to the environment. This additional lighting features 15 colour modes and can be controlled by the appliance remote control or the via your smart device. The kit features a 3 metre length of RGB LED strip light and up to two kits can be simultaneously connected to a Solus appliance, making it the perfect addition to fire suites and media walls.

ix¹⁰ CORNER

6 YEAR COMPREHENSIVE WARRANTY.

The Solus Collection: A Legacy of Excellence

For over 70 years, the Solus Collection has exemplified unmatched excellence in the fireplace industry. By seamlessly blending traditional craftsmanship with modern design, we have created uniquely stylish and functional products of the highest quality. Each Solus appliance reflects our unwavering commitment to quality excellence, meticulous attention to detail, and superior craftsmanship, ensuring you can choose Solus with confidence.

Our Warranty: A Promise of Quality

Every Solus appliance comes standard with a comprehensive 6-year warranty (parts & labour), provided it is purchased through an authorised dealer. This warranty underscores our dedication to delivering not just exceptional products, but also peace of mind. For appliances purchased outside our authorised dealer network, a statutory 1-year non-extendable warranty applies.

For full details and terms and conditions, please visit [visionfires.co.uk](https://www.visionfires.co.uk).

iX¹⁵ CORNER

SOLUS iX SERIES

Featuring **truburn** Flame Technology

Taking electric fires to a whole new level, the iX series features Truburn flame technology, bringing electric fires to life like never before. Designed in-house using innovative techniques to create authentic moving flames, ultra realistic glowing logs and authentic sounds effects to produce a convincing illusion a burning fire. The level of realism is truly unparalleled.

The appliances feature a uniquely designed log arrangement, produced to specifically work in conjunction with an intricately created flame pattern that maps the contour of the logs. Each appliance comes with the option to install in a Front, Corner or Panoramic aspect.

SOLUS VS SERIES

Whether you are planning on creating the ultimate social hub or simply increasing the wow-factor of your living room, make every detail matter with a Solus appliance from Vision Fires. Our approach is to create beautiful, inspiring appliances that change the perception of a traditional electric fire.

With a Solus fire, you are in control of every aspect of your appliance, from the speed, colour and brightness of the entrancing flames to the enchanting crackling sounds of burning logs, or the complementing ambient lighting of your extended living space.

Our unique TriLight technology provides multi angled, fully customisable dynamic LED lighting to create thousands of unique colour and tonal combinations to the flames and fuel bed. Each can work in harmony with one another or can work independently to create a unique combination to create a truly unique atmosphere, all at the touch of a button.

To provide an insight into the possibilities, all Solus fires come with 6 programmed themes to highlight some of the fascinating lighting combinations that can be created. Please see the VS technical specification on page 39 for more information.

COPPICE REAL LOG SET TO SUIT
LANDSCAPE VS MODELS

FOR THE ULTIMATE IN PERFECTION, LOOK TO NATURE!

Introducing the Coppice real log set, the definitive upgrade for your Solus VS Series appliance. Offering the ultimate in realism, this hand-crafted piece uses specially selected, natural logs to create an authentic latticed fuel bed, complete with forest floor embers. Every Coppice real log set is unique and produced in the UK using locally sourced materials, expertly bonded together to form a single, easy to install product that adds the perfect finishing touch to your fire.

Our Coppice Real Log sets are crafted using natural products and there may be some variances between each fuel bed. We always aim to reproduce the same layout for each set but due to the nature of the products being used there may be variances in the finer details.

VS100 ZENITH SUITE IN CALACATTA

VS100 ZENITH SUITE IN CALACATTA.

The classical lines of the VS100 Zenith Suite are a beautiful way to enhance any living space. Crafted from Calacatta Honed Sintered Stone, this wonderfully appealing material utilises cutting edge technology to create an irresistible alternative to marble or quartz. The process of sintering takes natural mineral particles and forms them under incredible heat and pressure to produce a strong and durable material that is resistant to scratching, can withstand high temperatures, does not deteriorate, or discolour from UV rays, and is very easy to clean. Calacatta Honed Sintered Stone is an authentically accurate recreation of Calacatta marble with simple grey veining, adding depth to the smooth white finish that just begs to be touched.

Coppice Real Log upgrade available on this appliance see page 41 for details.

VS100 ZENITH SUITE IN NERO

VS100 ZENITH SUITE IN NERO.

The classical lines of the VS100 Zenith Suite are a beautiful way to enhance any living space. Crafted from Nero Honed Sintered Stone, the striking aesthetic of this distinctive material is marked by uniqueness. The Nero offers a fully inverted appearance with an abundance of white veining against a deep black marble.

Demonstrating decades of manufacturing excellence, careful consideration has been taken to ensure alignment of the inimitable veining patterns across each component, creating a sense of continuity that conveys affluence and luxury.

Coppice Real Log upgrade available on this appliance see page 41 for details.

VS130 PANORAMIC

VS130.

At 1.3 metres in length, the VS130 is ideal for a range of interiors with its minimalist design themes. Add a sense of wonder to your home and bring it to life with the touch of a button.

Coppice Real Log upgrade available on this appliance see page 41 for details.
